

Handout

Animal Cell Organelle Terminology

Use a variety of resources, such as textbooks and the internet, to research, define the following terms, and relate the terms to climate change.

Nucleus:

Ribosomes:

Cell Membrane:

Rough Endoplasmic Reticulum:

Smooth Endoplasmic Reticulum:

Vacuoles:

Mitochondria:

Golgi Apparatus:

Lysosomes:

Brainstorming

Your task is to create an efficient code (the shortest code possible) in the *Biochemistry Animal Cell Organelle Terminology Example* Scratch program that will continue the current pattern with the remaining Animal Cell Organelle Terminology
